Greetings,

My Department hired Midnight Special for its Spring Banquet, several years ago. They were superb! They are a great mix of musical virtuosity, top-notch vocals, playing a selection of danceable music and impressive performance numbers. They are equally at home at a semi-formal corporate event, a festival, or a music bar. Since that Spring Banquet, I became a fan of the band and regularly go to their gigs. Of course, I am one of the first to dance and the last to leave.

I recommend them highly for any venue, where you want to hear Classic Rock and Blues at their best.

Enjoy!
